¹ Preventive care benefits include: routine physical, routine hearing exam, routine eye exam, routine gynecological exam, routine mammogram, bone mass measurement, colorectal cancer screening, prostate cancer screenings and pneumonia, flu and Hepatitis B immunizations and any additional preventive service covered by Original Medicare.

The five new Preventive Benefits for 2013 are:

- Screening and Behavioral Counseling Interventions in Primary Care to Reduce Alcohol Misuse
- Screening for Depression in Adults
- Screening for Sexually Transmitted Infections
- High Intensity Behavioral Counseling to Prevent STIs
- Intensive Behavioral Therapy for Cardiovascular Disease, and Obesity Therapy

² Members must use network pharmacies to receive plan benefits except in limited, non-routine circumstances when a network pharmacy is not available. Additional cost may be incurred for drugs received at an out-of-network pharmacy.

³ Initial Coverage Period cost sharing applies between the plan deductible and the Initial Coverage Limit.

⁴ The specialty tier includes drugs which cost at least \$600 per month and are not eligible for tiering exception requests.

⁵ The Initial Coverage Limit (ICL) is the total amount paid by Aetna AND the member for covered Part D drugs.

⁶ The Medicare Coverage Gap Discount Program will provide manufacturer discounts on brand drugs to Part D enrollees who have reached the coverage gap and are not already receiving "Extra Help". A 50% discount on the negotiated price (excluding the dispensing fee) is available for those brand name drugs from manufacturers that have agreed to pay the discount.

⁷ Once member out-of-pocket costs for covered Part D drugs reaches TrOOP threshold, Catastrophic Coverage applies.
