The MedigapSecurity rates shown are subject to change periodically. This summary is a partial listing of benefits. Refer to the Outline of Coverage for more details.

*Plan F High Deductible pays the same benefits as Plan F after a \$2,180 calendar year deductible. The amount of \$2,180 is the 2016 amount and it may change on January 1 each year. Benefits from Plan F High Deductible will not begin until out-of-pocket expenses exceed \$2,180. Out-of-pocket expenses for this deductible are expenses that would ordinarily be paid by the policy. These expenses include the Medicare deductibles for Part A and Part B, but do not include the plan's separate foreign travel emergency deductible.

Independence Blue Cross Medicare Advantage Plans

Independence Blue Cross (Independence) offers two types of Medicare Advantage plans — **Keystone 65 Select HMO** and **Personal Choice 65SM PPO**. Though these plans differ in how members receive care and what they pay out of pocket, both plans include:

- Prescription drug coverage options
- Supplemental benefits for hearing and vision
- Worldwide emergency and urgently needed care coverage
- Preventive care services such as influenza vaccines, mammograms, and colorectal cancer screenings
- Convenient online resources, tools, and services
- Case management and disease management programs
- Fitness membership

Keystone 65 Select HMO

With many different plan designs to choose from, Keystone 65 Select HMO can help you meet your employees' coverage needs and stay within your budget. All Keystone 65 Select HMO plans offer:

- Annual out-of-pocket maximums
- A large network of doctors and hospitals
- Dental benefits

How an HMO works

1. Members choose a primary care physician (PCP) from the network.
2. The PCP arranges referrals to the other doctors, hospitals, and health care services that members need within the network.
3. Members simply show their Keystone 65 HMO ID card when they receive medical services.

Personal Choice 65 PPO

Looking for a plan that covers employees across the country? Personal Choice 65 PPO now has national coverage as well as:

- An annual out-of-pocket maximum for in- and out-of-network expenses
- More benefits at a lower cost than typically offered in a Medigap plan
- No referrals, and no need to select a primary care physician

How a PPO works

Members have the freedom to receive services from any licensed doctor who accepts Medicare. However, members' out-of-pocket costs are lowest when they receive services from physicians and hospitals that participate in the BlueCard network nationwide.

Independence Medicare Supplement Plan

MedigapSecurity

MedigapSecurity plans are standardized plans designed to cover the gaps in Original Medicare coverage that members must pay for out of pocket, which can add up to thousands of dollars each year. The gaps are deductibles, copays, and coinsurance.

Independence offers six MedigapSecurity plans: A, B, C, F, High Deductible F, and N. These plans include:

- Coverage for any doctor or at any hospital that accepts Medicare
- Coverage from providers who accept Original Medicare when traveling anywhere in the United States
- No referrals and no networks
- Emergency coverage worldwide for plans C, F, High Deductible F, and N
- A Healthy LifestylesSM Solutions program that offers reimbursements for fitness center fees, weight management, and tobacco cessation

How MedigapSecurity works

1. Members are free to visit any doctor who accepts Original Medicare.
2. There is no need to select a primary care physician.
3. There are virtually no claim forms.
4. It can be combined with Select Option PDP.

Independence Part D Prescription Drug Coverage

New for 2017! Standard and preferred pharmacies

Some pharmacies contract with our plan to offer lower cost-sharing to plan members. This is known as preferred pharmacy cost-sharing. You may fill your prescriptions at either a preferred or standard pharmacy. If you go to a preferred pharmacy, your cost for drugs on Tiers 1 and 2 will be lower. To find the preferred pharmacy near you, visit our online Provider/Pharmacy Directory tool here: ibxmedicare.com

Select Option® PDP

Select Option PDP is a Medicare Part D prescription drug plan. It is available to those who are eligible for Medicare benefits and are retired.

- There are no doctor or hospital benefits with this group health plan, making it ideal for those using our Medicare supplement coverage, MedigapSecurity.

To learn more about these options, contact your independent broker or your Independence Blue Cross group Medicare account executive.

If you do not work with a broker, and you want to make a plan change, please email the Plan Change form to medicare@ibx.com or fax it to 215-238-2315.

All premium rates shown are pending approval from the Centers for Medicare & Medicaid Services. Premiums charged could be less due to member qualification for low income subsidy, or more due to Part D Income Related Monthly Adjustment Amounts (Part D-IRMAA) or member Late Enrollment Penalty for Part D.

Independence Blue Cross offers Medicare Advantage plans with a Medicare contract. Enrollment in Independence Medicare Advantage plans depends on contract renewal. This information is not a complete description of benefits. Contact the plan

for more information. Limitations, copayments, and restrictions may apply. Benefits, premiums and/or copayments/coinsurance may change on January 1 of each year. The formulary, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary.

Independence Blue Cross offers products through its subsidiaries Independence Hospital Indemnity Plan, Keystone Health Plan East and QCC Insurance Company, and with Highmark Blue Shield — independent licensees of the Blue Cross and Blue Shield Association.

MedigapSecurity is not connected with or endorsed by the U.S. government or the federal Medicare program.

MedigapSecurity plans are offered through Independence Blue Cross and Highmark Blue Shield, independent licensees of the Blue Cross and Blue Shield Association.

To join, you must be enrolled in Medicare Parts A and B. Plan F and Plan N are available only to applicants who enroll within six months following enrollment in Medicare Part B or who are guaranteed the right to purchase these plans under applicable federal or state laws. You must continue to pay Medicare Part A (if applicable) and Part B premiums.

- Select Option PDP cannot be combined with a Medicare Advantage plan.
- Select Option PDP offers several levels of coverage to fit various prescription needs.

How Select Option PDP works

- Members can go to thousands of pharmacies within the network and simply present their Select Option PDP card.
- Some prescriptions may be covered at out-of-network pharmacies for emergency or urgently needed services. Members may have to pay more than their normal cost-sharing amount if they use an out-of-network pharmacy, and will likely have to pay the pharmacy's full charge for the drug and submit documentation to receive reimbursement.
