Small group definition update

As you may know, on Wednesday, October 7, President Obama signed legislation (H.R. 1624) to allow states to keep the current small group definition at 1-50 employees. The decision to implement this legislation for the state of New Jersey was in the hands of the New Jersey Department of Banking and Insurance (DOBI).

DOBI has decided to continue to define New Jersey small groups as 1-50 employees.
