We want you to have access to the latest [health care reform](#) news from Washington, D.C., and states across the country. This weekly e-mail links you to updates on health reform legislation that could significantly impact you.

This week's health care reform news:

Health Care cost increases to begin rising faster

A new published report projects that rising health care costs will accelerate over the next decade, by 5.8 percent annually between 2014 and 2024.

Other highlights include

- **Mississippi** releases new bulletin on network adequacy requirements for managed care plans.
- The **Kansas** Hospital Association is making another push to convince legislators to expand Medicaid eligibility.
- **New York's** state-based exchange's annual enrollment report shows market shares evenly distributed among insurers.
